NW OHIO PROPANE PRICE CAP PRICING AGREEMENT

Price Cap Pricing (with approved credit):

Price Cap Pricing allows you to lock in a price ceiling for your winter supply of propane.

- This pricing option is only available with an approved credit application.
- All leased tanks are automatically enrolled in the Price-Cap Program.
- Customers who own their own tank, and wish to participate in this program, will be charged \$50 per winter season. This fee will be waived for those that enroll in the Auto-Fill Program.
- A new Price-Cap Agreement must be signed and submitted each year.
- The signed agreement is due by September 30.
- This program requires a minimum amount of 500 gallons to be purchased throughout October 1 - April 30.
- Will-Call customers are still required to take delivery of 200 gallons minimum per delivery, or an additional per gallon charge may be added.
- Price-Cap payment is due within 30 days of delivery. Late payment will result in termination of the Price-Cap Agreement, and any additional gallons will be charged at the Current Price rate.
